BLOOD BANK.

**new single from
forthcoming album**

.....

A Year after releasing their debut record “**The Sound Of Trees Falling On People**” – an album described by Sydney’s FBI radio as one of the top ten albums of the decade – and only six months after being declared FBI and Timeout magazine’s Best live act of 2009 - Sydney based electronic three piece Seekae are back with a bag full of new material.

This August Seekae will be supporting long time influencers and UK Warp records act PVT on their album launch, for a set of dates along the east coast.

In support of these shows and with more to come, we give you the first song off the rank **Blood Bank**.

Drawing influences from various records, raves and eras Seekae look to bring their patented rhythm driven future beat based compositions and strong melodic overtones with them on the road - displaying a full set of new music composed over the past year.

Dates supporting PVT :

Melbourne 12th August Corner Hotel - Melbourne

Brisbane 19th August The Zoo - Brisbane

Sydney 21st August at the Manning Bar - Sydney
