

SEEKAE SIGN TO RICE IS NICE RECORDS

RICE IS NICE are super brilliantly happy to have Sydney Electronic band **Seekae** join the family!

We are also very excited to announce Seekae are the winners of the Australian Council for the Arts new "Soundclash" grant, a grant tailored to help electronic artists with recording and touring.

Since independently releasing their debut album "**The sound of trees falling on people**" in December 08' Seekae instantly impressed their audiences resulting in a whirl of much deserved all star reviews and radio love which included FBI album of the week.

Since taking a small break after the release Seekae have been busy remixing a bunch of their best buddies music, including Ghoul, Megastick Fanfare, Parades and Bearhug and have decided to release a special limited edition EP "Seekae Remix EP" with the said work.

The EP will be launched Aug 6th at Oxford Arts Factory, supports by the artists remixed on the EP: Ghoul, Megastick Fanfare, Parades and Bearhug!!

Its set to be a huge night! As Seekae missed all the FBI fundraisers this year, they have decided that all launch sales (door and ep) will be donated to FBI! **HOWZAT!**

Seekae will also hit the road with Decoder Ring for a string of dates around the country during August and September.

OAF "Seekae Remix EP Launch" Aug 6th | Doors at 8pm | Pre Sale - \$10 | On the door - \$15
